PROFESSIONAL SUMMARY

B.Tech Computer Science Engineering student at Rajiv Gandhi University of Knowledge Technologies, RK Valley, with hands-on experience building academic and hackathon projects using Java, Python, and web technologies. Developed DRISHTI-XAI, an explainable AI-based diabetic retinopathy screening prototype for Smart India Hackathon 2026, and built a Java-based Smart Study Planner using object-oriented programming and file handling. Familiar with Data Structures and Algorithms, DBMS, OOP, algorithms, and Git/GitHub. Currently seeking an internship to apply and strengthen technical skills through real-world development.

EDUCATION

B.Tech – Computer Science Engineering, *Rajiv Gandhi University of Knowledge Technologies, RK Valley*
Currently Pursuing

PUC – MPC, IT, *Rajiv Gandhi University of Knowledge Technologies, RK Valley*
9.00 CGPA

SSC, *AP Residential School (Girls), Atmakur*
93.83%

TECHNICAL SKILLS

Programming
C, Java, Python, JavaScript

Web
HTML, CSS

Core CS
Data Structures & Algorithms, OOP, DBMS, Algorithms

Tools
GitHub, VS Code

Interests
Web Development, AI/ML, Quantum Computing

PROJECTS

2026

DRISHTI-XAI, *Explainable AI Diabetic Retinopathy Screening Prototype*
Python | Streamlit | OpenCV | Explainable AI Developed an AI-assisted screening prototype as part of Smart India Hackathon 2026 for exploring diabetic retinopathy screening in rural healthcare settings. Implemented a workflow covering fundus image upload, image-quality checking, risk assessment, visual explanation, smart referral, and doctor review. Built image-processing and explainability features using Python, Streamlit, and OpenCV. Designed separate workflows for health workers and doctors. GitHub: github.com/RISHITHA-DHANALA/DRISHTI Live Prototype: drishti-xai.streamlit.app

Smart Study Planner
Java | OOP | ArrayList | File Handling Built a console-based application to organize subjects and topics and track study progress. Applied object-oriented programming, ArrayList, loops, conditionals, and user input handling. Implemented file-based data storage to preserve study information. GitHub: github.com/RISHITHA-DHANALA/Smart-Study-Planner-Java

ACHIEVEMENT

31/08/2026

Smart India Hackathon 2026 — Top 50 Team Selection
Team Tatva — Selected among the Top 50 teams out of 120 teams during the internal SIH 2026 selection at RGUKT RK Valley.

RELEVANT COURSEWORK
